# PRESS RELEASE

## LIBERTY-PITTSBURGH SYSTEMS, INC. ANNOUNCES NEW PRODUCT LINE

### Coordinating suit of products now available from Liberty- Pittsburgh Systems, Inc.

**PITTSBURGH, PA - SEPTEMBER 21, 2005** - Liberty-Pittsburgh Systems, Inc. is excited to announce a new line of products that is available for purchase. For nearly one hundred years, LPS has had a significant presence in the dry cleaning and laundry industry. The producer of tags and forms, LPS is expanding its line of products. This new suit of products was first introduced at Clean '05 with great response. Five products make up a coordinating "suit" and can help cleaners enhance their image without the high cost of customizing. The **Fresh Apparel** and **Quality Care** suits will brand dry cleaners and provide their customers with lasting impact. Included products in each suit are:

- Customer Carrying Bags – These stylish, easy-to-carry bags are perfect for folded clothes.
- Tissue Paper – The matching tissue paper makes a stylish addition to the Customer Carrying Bags.
- Thermal Rolls – Using the 21# thermal rolls, every cash register transaction will make a quality impression on customers.
- Garment Covers – Placed on the hanger over each garment, the garment covers make a perfect finishing touch.
- Repair Tags – Show customers that a repair was made by using the coordinating repair tags.
